

1. Please refer to Section 3.5.3.4 (page 10) Quality Assurance Manager (QAM). The RFQ calls for the QAM to be "from an independent firm that has no involvement in construction operations for the Project,...". We understand the separation from the construction firm. Does the QAM also have to be independent from the design firm?

The QAM does not have to be independent from the design firm.

2. Please refer to Section 3.10 DBE Goal. There is a 13% DBE goal associated with the Project. This goal applies to the "design and construction of the Project." Does this mean that the 13% DBE participation is to be attained in the overall cost of the Project, or do you expect the Design-Build Team to attain 13% DBE participation in the design cost as well as 13% DBE participation in the construction cost?

The 13% DBE participation goal is for the overall cost of the Project.

3. As addressed at the Project Information Meeting on August 15, we understand that all resumes included in our RFQ count against the 30 page limit. Further, we are to use the form Attachment No. 3 in the RFQ for the resumes. The experience section of this form is very short and it will be difficult to include all the information required in the space provided. Is it permissible if we "recreate" this form electronically and resize some of the sections a. thru f. so as to enlarge section g.? All the same information will be provided as requested.

Yes you may enlarge the section, however, the information must be submitted on 8X11 paper or you may include an Attachment to the Resume form which will be counted against your page limit.
